STATEMENT OF THE SUBSTANCE OF INTERVIEW

Sir:

This Statement is filed in response to the Examiner's Interview Summary issued on September 13, 2004 in the above-identified application. The Examiner's Interview Summary summarized a telephonic interview conducted between the Examiner and Applicants' undersigned representative on or about August 24, 2004.

On or about August 24, 2004, the Examiner contacted Applicants' undersigned attorney and asked permission to cancel claims 32-34 in view of what the Examiner deemed to be an indefinite phrase "small-thickness portion". In lieu of the Examiner's proposed course of action, it was suggested that in order to address potential indefiniteness issues and to expedite prosecution, the Examiner may replace the phrase "small-thickness portion" with --groove or

cavity--, in accordance with Figs. 11-14 and the corresponding disclosure in the specification.

The Examiner agreed to make such a modification to claims 32-34 via an Examiner's Amendment.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

Jason M. Okun
